## HOW TO PRONOUNCE HYOMEL.

Rickett & Wells Tell of This Remarkable Treatment That Cures Catarrh Without Stomach Dosing.

"While all our customers who have used Hyomel agree that it is remarkably successful in curing catarrh and other diseases of the air passages," say Rickett & Wells, "yet there has been considerable diversity of opinion as to how the name is pronounced."

"Hyomel is pronounced just as if it were spelled 'high-o-me,' with the accent on the first syllable."

"A great many come to our store and instead of asking for Hyomel, tell us they want a package of the treatment for catarrh that we are selling on a guarantee."

"While we know what they mean, and all of our clerks will give them Hyomel, yet we want everyone to know how to pronounce the name of Hyomel, so that they may run no chance of getting anything but Hyomel, no matter where they go."

"It is nature's true cure for catarrhal troubles. It kills the germs of this disease, soothes and heals the irritated mucous membrane, and effectually drives all catarrhal poisons from the system."

"All the stomach dosing in the world can do no lasting good in the treatment of catarrh unless the nose and throat are free from catarrhal microbes. There is no stomach dosing with Hyomel; just breathe it."

"We have so much confidence in the value of the treatment, that we are selling it with the understanding that we will return the money if it fails to cure. All Times readers know that we do exactly as we agree."
